Abstract* The New Training Directors workshop is designed to provide the new training director or an internship or postdoc training program with helpful information about the many roles that are required. The workshop will also focus on the stages of trainee development, curriculum issues, importance of outcome data and how to manage difficult supervisors and trainees. This basic workshop will provide important groundwork to assist with being a successful training director.

Learning Objectives:

- #1* Identify and name practical strategies for intern and postdoctoral recruitment and selection.
- #2* Identify relevant and discuss effective strategies for managing internship and postdoctoral programs.
- #3* Learn and Identify Effective strategies for evaluating and managing the psychology training program.
