AAPI Online Enhancements List 2017

1. Organize Search Results on the Designation page
   - Internship designation sites listed in alphabetical order

2. Reference Request Type Removed
   - With the introduction of the Standardized Reference Requests Form, the reference request type of US or Canadian is no longer required

3. Updated the content of the Standardized Reference Request Form

4. Added clarifying text and instructions explaining the process of submitting applications singularly or in batches

5. Master's Degree
   - Under the Current Graduate section, we have added the option to indicate whether or not the applicant has been awarded or is seeking a master's degree at their current graduate institution.

6. Clarifying instructions have been added to the Supplemental Files section of the application regarding HIPPA guidelines, and how to de-identify client reports

7. Upon creating an account, the applicants are now required to confirm that they are from a certified program

   Clarify why individual applications may not be complete
   - Added two additional data points to the designation status page, indicating which transcripts and references are still pending, causing a submission to be incomplete

In addition to updating instructions, we have also added on-screen help text to various sections, clarifying instructions and policies
